

# CAGE SLIDER

## Cage Slider

**Art Mould's Plastic Cage Sliders** are designed for steel reinforcement cages and columns in boreholes and related construction applications. Vertical installation allows for controlled spacing and reduced friction, enabling easier cage placement while contributing to improved alignment and stability.

The Cage Sliders are corrosion free and reduce water penetration.

### DETAILS

Sizes Available	1-1/2", 2", 2-1/2", 3"
Colour	Concrete Grey
Material	Reinforced, high-impact material
Packaging	In heavy-duty UV protected poly bags
Installation	Visit <a href="http://www.artmould.ca">www.artmould.ca</a>
