

UPPER SLAB BOLSTER

UPPER SLAB BOLSTER

UPPER SLAB BOLSTER

Art Mould's Upper Slab Bolster provides high weight load support for multi mat applications, slabs, precast, post-tension, heavy-duty on grade and side form spacing.

Available in 30" and 60" lengths, they are lightweight, can be used individually, or snapped together with a unique clip designed for easier and quicker installation.

The design maximizes strength and facilitates superior concrete flow.

DETAILS

Sizes Available	3/4" to 6" in 1/4" increments
Colour	Concrete Grey
Material	Reinforced, high-impact material
Strength	Impact resistant, corrosion free and weatherable resistant resin
Packaging	In heavy-duty cartons for ease of transporting to and around job site. Individual pieces are 30" in length OR pre-assembled in 60" lengths and bundled
Installation	Visit www.artmould.ca

UPPER SLAB BOLSTER SIZING

2-1/2 FT LENGTHS - BOXED

PART #	HEIGHT	HEIGHT	PC/BOX	FT/BOX	PC/ PALLET	FT/ PALLET	BOX/ PALLET
